3CHEM® Military & Aerospace Coatings

&

socomore

A new partnership for advanced coatings

This agreement completes SOCOMORE's existing range of **aerospace coatings**, with technologies that will offer new solutions to its current customers and will open **new opportunities** in different applications.

Why does this collaboration make sense for our customers?

Both companies' teams will work together to propose solutions meeting their customer unique specifications, such as:

- **composite surface protection coatings**
- **lower VOC coatings**
- **extended life coating systems**

3CHEM
