COATINGS

socomore

Exterior/Interior Coatings

Key facts

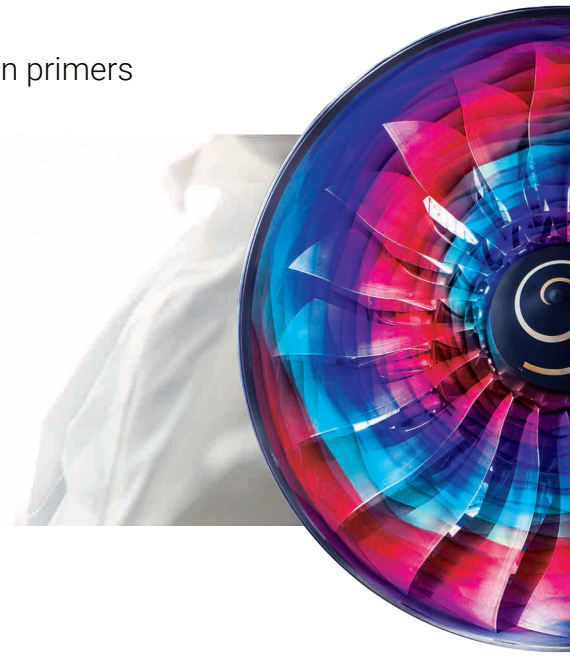

- **High quality**, **long lasting** and **gloss retention** color coatings
- A wide range of decorative coatings for aircraft cosmetic appearance : **security marking**, **decoration**, **protection**, **external schemes** and **dashboard**
- **Civil** and **military** application

Applications

Dedicated solution for:

- Aluminium, steel, stainless steel, composite, plastic materials
- Direct application on metal and finish coating for anticorrosion primers

Features and benefits

- Full range of solvent based, water based solutions to answer customer needs
- A wide variety of colors and appearance (from ultra matt to high gloss)
- NATO / Infrared colors for military applications
- UV and weather resistant coatings
- High gloss retention coatings
- Excellent service life

YOUR CHALLENGE

OUR SOLUTION

Color fading over time	Limited alteration of the coating at recommended temperature environment
To satisfy sustainability requirements	REACH/TSCA compliant, Chrome Free paint system
Technical requirements / specificities beyond the aesthetic aspect	Multi-purpose coatings with functional and cosmetic properties

Range overview

Exterior / Interior color coatings*

	Product type	Exterior / interior	Weathering performance	Available colors	Specificities	Main approvals
LBYH 150	Waterborne polyurethane topcoat	Exterior / Interior	UV resistant	Any color (from ultra matt to high gloss) NATO /IR color for military	For external schemes and dashboard	THALES, MBDA
LBYH 142	Waterborne polyurethane topcoat	Exterior / Interior	UV resistant	Black (satin-matt)	Composite parts exposed to UV	LEONARDO / SAFRAN NACELLES
D146/246/346	Polyurethane solventborne topcoat	Exterior / Interior	UV resistant	Any color (matt, semi-gloss, gloss) NATO /IR color for military	For external schemes and dashboard	THALES
ETOKAT AKTIV AERO	Epoxy high solid monolayer coating	Interior	Anti-corrosion	Any color (matt, semi-gloss, gloss)	Interior monolayer topcoat - Direct to Metal	MBDA / NEXTER MUNITIONS / THALES
SOCOGLAZE PT-799	Polyurethane solventborne topcoat	Exterior / Interior	UV resistant	Any color (matt, semi-gloss, gloss) & military colors	For external schemes and dashboard	MIL-PRF-85285
SOCOGLAZE PT-426	Polyurethane solventborne topcoat	Exterior / Interior	UV resistant	Any color (matt, semi-gloss, gloss) & military colors	For external schemes and dashboard	conform to MIL-PRF-22750
AEROGLAZE A276	Moisture-curing polyurethane topcoat	Exterior	Very good UV resistance - Low solar absorptivity	White	Low outgassing properties for space applications	BALL AEROSPACE / ILC DOVER / SPACE SYSTEMS / NASA / NORTHROP GRUMMAN / RAYTHEON

*Worldwide availability subject to local regulations
